

# Mental Health and Disability Services Redesign 2011

## County Statistical Information Persons With Developmental Disabilities (With No Intellectual Disability)

Date Created: August 31, 2011

Source: DHS/County Submitted Data

Counties may choose to fund non-mandated services for persons with developmental disabilities. (Counties have no authority or management of the Medicaid mandated services and must pay the non-federal share of some of these services.) This overview gives an idea of how many counties fund the services and to what degree.

- Full Access: 60 counties, 71% of the Population
- Partial Access: 6 counties, 9% of the Population
- Mandated only: 30 counties, 19% of the Population
- Mandated only/Exception to Policy: 3 counties, 1% of the Population

Full access to services (equal to what a person with ID would receive in that county)

Partial access to services (at least two or more significant services, not including consultation, education, administration)

Mandated services only (those services paid for by Medicaid in which the county must pay the non-federal share and commitment)

Exception to Policy: County will bring any requests to the Board of Supervisors for an Exception to Policy.

### NUMBER OF PERSONS SERVED BY SERVICE CATEGORY
